Title : DB Report Manager (GI TECH GAMING)

Team Member : 2
Duration : 6 Months
Developed in : BOOTSTRAP 5, LARAVEL, Multiple Database (Pgsql,MS SQL,MySql).
URL : http://220.225.104.133:8080/db_report_manager/public/login

Abstract:-

Our Database Report Manager is a powerful query builder that integrates user login-based access to databases, allowing users to seamlessly configure and join two or more tables. The system facilitates the application of filters to query results, enabling users to export data to Excel and database tables. Moreover, the tool supports dynamic data visualization by allowing users to select X-axis and Y-axis values, group by sum or count, and customize the display based on user preferences. This comprehensive solution enhances data analysis and reporting capabilities, providing a user-friendly and efficient platform for users to derive meaningful insights from complex datasets.
